PRESS RELEASE

AC and IMCC Donate Face Shields to Health Professionals

- More than 200,000 face shields made out of recycled plastic have been donated through PetStar, Arca Continental, and the Coca-Cola Mexican Industry to personnel working in hospitals treating Covid-19.

Monterrey, Mexico, May 18, 2020. -- Arca Continental, as part of the Coca-Cola Mexican Industry (IMCC in Spanish), participated in the donation of more than one million PET bottles, which were then recycled by PetStar, the largest food grade PET recycling facility in the world, which is led by Arca Continental. The recycled material was used to make face shields for medical staff in Mexico.

As part of the support efforts the company has promoted during the health emergency, Arca Continental donated 106,000 protective thermoformed 20-caliber face shields for personnel working at hospitals that are treating people infected with Covid-19 in the territories where the company operates.

Thermoformed 20-caliber face masks are of great use for medical personnel who are in close proximity with patients infected with Covid-19 because they have the flexibility and resistance required to offer adequate protection.
