PRESS RELEASE

“Our progress in the MILA Index strengthens our commitment to the integration of sustainability in our business strategy. Moving forward, we will continue to work towards creation of shared value, environmental stewardship, and best practices in corporate governance, as the pillars of sustained growth,” stated Arturo Gutiérrez, CEO of Arca Continental.

In addition to the DJSI, Arca Continental has been listed for six years on the FTSE4Good Index, which is determined by the London Stock Exchange, and the Sustainability Index of the Mexican Stock Exchange, among others.

The company’s progress in sustainability is a result of its continuous efforts to integrate these institutional efforts in all business areas and markets which we serve under a common strategic framework, including standardized metrics and building an increasingly stronger link with different stakeholders on the design, execution, and evaluation of the most important initiatives.
